Help & Navigation

Welcome to the Inventory Management App!

How to Register

To register, enter your username (e.g., Username1@gmail.com) and password (8 characters or more, including special characters and numbers). Then, click the 'Register' button.

How to Log In

Enter your registered username and password, then click the 'Login' button to access your account.

Using Inventory Buttons

Adding Items

To add an item, simply click on the 'Add Item' button and fill in the necessary details.

Editing Items

To edit an item, click the 'Edit Item' button. You can use the search function to find items based on their item ID or item name. Once you've located the item, update the desired fields and save the changes.

Deleting Items

To delete an item, click the 'Delete Item' button. Use the search function to find the item by its ID or name, then confirm the deletion using the 'Delete' button.

Displaying Items

The 'Display Items' button allows you to view all items currently stored in the database.

Return to Menu

The 'Return to Menu' button takes you back to the main page, where you can access other options and features of the app.

Help Feature

If you need assistance, you can access this help feature at any time by navigating to the Help section from the main menu.
